(800) 234-6778

Powertherm Maxim is the leading provider of heavy-duty industrial reciprocating engine accessories, from air intake and exhaust systems, including silencers and catalytic converters to industrial insulation blankets, exhaust accessories and catalyst elements. Whether it's manufacturing or designing a complete system for first fit packagers, rental fleet operators, retrofit and overhaul shops, or end users of industrial engines, Powertherm Maxim can meet your needs. We are the number one trusted source for all your industrial reciprocating engine accessories needs.

We strive to provide competitive pricing, timely service, performance assurance and provide you and your company the Best Customer Service and Highest Quality Products in our industry. It is a commitment to excellence, quite simply... it is Our Commitment To You!
